**Rumania's Desire
For War Decreases**

BERLIN, Aug. 22.—The Budapest Aesthet which is usually well informed on the Rumanian situation prints a dispatch from its Bucharest correspondent today saying the agitation for war, which in the last few days has been almost stilled by the news that Russian troops had arrived to take part in the campaign which under other conditions might be taken by the Greeks.

Today's dispatches regarding operations on the Macedonia front indicate that the engagement is becoming general along the entire 150-mile front. North of Saloniki in the Doiran region, Serbian troops are reported to have captured two forts while on the left bank of the Struma the Anglo-French forces are attacking the Bulgarians northwest of Seres.

On the western end of the line the Bulgarians claim notable advances, some of which are conceded. They have pressed southward from Flouina, occupying Kastoria and Koriza.

For the moment at least operations on the eastern and western fronts are overshadowed by those in the Balkans. The entente offensive, however, is proceeding interruptedly on both these fronts.

The French have resumed infantry activity along the Somme, capturing trenches near Estrees and Soissons, south of the river. They have also made progress north of the stream in the outskirts of Clery an important objective in their drive to Peronne.

British troops on the Somme front have advanced along a line a half-mile long in the region of Pontecques and have also made an advance near the Leipsic salient, it was announced today.

To bring the labor conditions under control, General Carranza issued a decree revoking the riot act of 1862, but increasing the severity of its terms. He held the strike was in the nature of a rebellion against the government because of stopping work in the munition factories.
